1. The following is an examiner's statement of reasons for allowance: Applicant filed amendment on 5/2/06 to cancel the rejected claims 79-83. Claims 71-78 are allowed because prior art of the record does not suggest or teach "lowest switch identification is computed based on a unique Media access control address assigned to each switch in the stack, a weight assigned to the stack port via which the switch is accessed, a link cost assigned thereto, and closeness to an OSI layer 3 switch is measured as the number of hops between the OSI layer 2 switch and the OSI layer 3 switch as determined from the topology of the stack".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jungwon Chang whose telephone number is 571-272-3960. The examiner can normally be reached on 9:30-6:00 (Monday-Friday).
